

ORASOLV P

HIGH-TECH SOLVENT

DEFINITION

ORASOLV P is a multipurpose solvent with improved effectiveness for routine degreasing with a flash point above 60°C for the safest possible working conditions.

ADVANTAGES

- Highly effective without being heated, avoiding additional energy costs.
- Solvent not subjected to flammability labelling.
- Quickly penetrates and dissolves all oily and greasy deposits.
- High flash point ensures user safety.
- Compatible with most synthetic materials.
- Suited to degreasing part washers. Quick evaporation through blowing.
- Does not contain enzymes or bacteria, which limits the risk of mutation.

APPLICATION FIELDS

ORASOLV P is specially formulated to degrease all mechanical parts and metallic surfaces. For cleaning engines, mating surfaces, electric motor windings, etc.

TECHNICAL CHARACTERISTICS

Aspect	transparent liquid
Colour	green
Density at 20°C (ASTM D 4052)	0.795
Flash point (VC) (ASTM D56)	62°C
Auto-ignition temperature	>230°C
Dielectric strength	>40000 V
Kb value	> 70

INSTRUCTIONS FOR USE

Especially adapted for use with ORAPI degreasing part washers equipped with stationary pumps.

Electrical part washer for 200 l drum ref. 700050

Pneumatic pump part washer for 200 l drum ref. 700051

45 l upright electrical part washer ref. 700061

To be used neat and cold, with a brush or by immersion.

PACKAGING

1 l container

Ref. 2540 i2

5 l jerry can

Ref. 2540 J1

20 l drum

Ref. 2540 O1

200 l drum

Ref. 2540 U2

INFO

Collection of used solvents: please contact us.

ORAPI handles everything.

Collection, transport, destruction, treatment certificate.
