

REDUCE 4

SUPER DE-SEIZING

CLEANS - DE-SEIZES - LUBRICATES

WATER-RESISTANT and ANTI-CORROSIVE

DEFINITION

Quick action, super-penetrating de-seizer and rust reducer that provides a phosphate coating.

ADVANTAGES

- Works very quickly.
- Wets, penetrates, cleans and lubricates in one single step.
- Enables very difficult de-seizing without damaging threads.
- Provides a water-repellent and phosphate coating.
- Contains no silicone.
- Possesses anti-rust, anti-corrosion (creates a corrosion-inhibitive film) and reinforced anti-wear properties.

APPLICATION FIELDS

REDUCE 4 is particularly suited for loosening assemblies that are very seized: bolts, nuts, screws, threads, waterworks rods, pulleys and mountings requiring usage of an effective de-seizer. REDUCE 4 then produces a phosphate coating on parts, and lubricates very well over several months. REDUCE 4 provides perfect resistance to water and effective and long-lasting protection regardless of environmental humidity levels surrounding treated parts.

TECHNICAL CHARACTERISTICS

Aspect	Transparent liquid
Odour	Light
Density at 20°C	0.825
Flash point	>60°C

INSTRUCTIONS FOR USE

1/2

Manufacturing site and registered office

Parc Industriel de la Plaine de l'Ain - 225 allée des Cèdres - 01150 Saint-Vulbas - FRANCE

Tél. +33 (0)4 74 40 20 25 - Fax +33 (0)4 74 40 20 26 - www.orapi-maintenance.com

Apply generously to parts to be loosened.
Wait for the product to settle between surfaces.
Release parts.

PACKAGING

270 ml aerosol	ref. 4800 A8	x 12
405 ml aerosol	ref. 4800 A2	x 12
800 ml aerosol	ref. 4800 A5	x 12
500 ml spray bottle	ref. 2800 i1	x 12
1 liter metal jerry-can	ref. 2800 i2	x 6
5 L jerry-can	ref. 2800 J1	x 4
200 L drum	ref. 2800 U2	x 1

HOMOLOGATION
