

ORAPHOS 50

PHOSPHATE TREATMENT DEGREASER

REINFORCED ANTI-CORROSIVE POWER

DEFINITION

Water-based degreaser with PHOSPHATING properties.

ADVANTAGES

- Cleans, degreases, and creates phosphate coating on metal parts in a single operation.
- Improved effectiveness.
- Solvent-free. Free from VOCs, does not damage the ozone layer.
- Non-flammable.
- Dissolves grease, oil, carbon residue, sludge, carbon deposit etc.
- Improved anti-corrosive power.
- The surfaces treated can be painted.
- Phosphate coating durably protects metal against corrosion.

APPLICATION FIELDS

- Degreasing and phosphate coating metals.
- Particularly suited for cleaning metals (iron, steel, stainless steel) by hand or in a bath.
- Cleaning of raw metal frames.
- Production of tools, ice picks, mechanical parts exposed to the elements, etc.

TECHNICAL CHARACTERISTICS

Aspect transparent liquid
 Colour light yellow
 pH 1
 Density at 20°C 1.3
 Flash point non-inflammable
 VOCs = 0%.

INSTRUCTIONS FOR USE

This product is best used diluted in hot water at approximately 45°C-55°C.
 Immerse the parts in a 10% to 50% bath according to the degree of soiling.
 The product can also be applied with a brush or high pressure cleaner.
 Do not rinse.

PACKAGING

1 kg container	ref. 2963I2	x 12
5 kg jerry can	ref. 2963J1	x 4
60 kg drum	ref. 2963O5	x 1
200 kg drum	ref. 2963U2	x 1
